

# Verano Production Breakdown Worksheet

1. Product & Batch Details	
Product Type(s) Being Produced	<input type="checkbox"/> Flower <input type="checkbox"/> Concentrates <input type="checkbox"/> Infused <input type="checkbox"/> Edibles <input type="checkbox"/> Topicals
Input Material	<input type="checkbox"/> Bulk Flower <input type="checkbox"/> Distillate/Extract
Strain / Material Description	
Initial Weight (g)	
Unit Weight (g)	
Lot ID Barcode:	Batch ID Barcode:

2. Pre-Operation & Materials Check		
Step	Performed By (Init/Date)	Verified By (Init/Date)
2.1 Confirm area is clean & clear of prior materials		
2.2 Verify input materials approved & within expiry		
2.3 Confirm QA checklist is complete		
2.4 Verify scales/equipment are calibrated & documented		

3 Weigh Checks			
Target Fill Wt (g)	Check #1	Check #2	Check #3

4 Yield Calculations			
Calculation	Formula	Values	Result
Theoretical Yield	(Total Input Wt / Unit Wt)		
Actual Yield	(Units Produced)	-----	
Percent Yield	(Actual / Theoretical) × 100		

5 Post- Production Review		
Checks	Yes / No	Comments
Deviations, if any, have been recorded		
Final product visually inspected & properly labeled
